

Whiteboard Connections Token (WBC) - Whitepaper

1. Executive Summary

The Whiteboard Connections Token (WBC) is a utility and governance token built on the Solana blockchain, designed to revolutionize collaborative education, knowledge sharing, and professional development. WBC facilitates engagement incentives, decentralized decision-making, and seamless transactions within the Whiteboard Connections ecosystem.

2. The Problem: Lack of Incentives in Traditional Education

Traditional education platforms lack financial incentives for contributors, have centralized decision-making, and operate with high fees. WBC aims to disrupt this by rewarding educators, enabling governance-driven decisions, and facilitating seamless transactions.

3. The Whiteboard Connections Ecosystem

Whiteboard Connections is a decentralized knowledge-sharing platform powered by WBC tokens. Key features include governance participation, incentives for educators, NFT integration, staking rewards, and a low-cost transaction ecosystem enabled by Solana.

4. Tokenomics

Total Supply: 500,000,000 WBC

Decimals: 6 (1 WBC = 1,000,000 micro WBC)

Distribution:

- Liquidity Pool (Locked): 40% (200M WBC)
- Community Growth & Rewards: 25% (125M WBC)
- Whiteboard Treasury: 20% (100M WBC)
- Team & Development: 10% (50M WBC)
- Initial Airdrop: 5% (25M WBC)

5. Governance & Community Participation

WBC holders have direct governance through a DAO, where they vote on platform development, fund allocation, and policies. On-chain governance ensures transparency and decentralization.

6. Technical Specifications

Blockchain: Solana (SPL Token Standard)

Smart Contract Deployment: Secured on Solana

Security: Regular audits, bug bounties, and robust smart contract protections.

7. Roadmap & Future Development

Phase 1 - Token Launch (2025 Q1):

- Deploy WBC token on Solana
- Liquidity Pool setup on Raydium
- Community airdrop campaign

Phase 2 - Ecosystem Expansion (2025 Q2-Q3):

- Governance model implementation
- Staking & rewards program
- NFT integration for educational achievements

Phase 3 - Utility & Mass Adoption (2025 Q4 - 2026):

- Tipping & peer-to-peer transactions
- Partnerships with educational platforms
- Mainstream adoption through influencer partnerships

8. Conclusion

Whiteboard Connections Token (WBC) combines humor, engagement, and real utility to empower educators, foster collaboration, and drive community-driven innovation. By leveraging Solana's

efficiency, WBC is set to reshape knowledge-sharing in a scalable, rewarding way.

Join the Movement. Own the Future of Collaboration.
